## Contenido

1.	<b>Solicitar Access Token</b>	3
2.	<b>Consultar Access Token</b>	3
3.	<b>Refrescar Access Token</b>	3

## 1. Solicitar Access Token

Url:	<a href="http://&lt;www.apiserver.com&gt;/api/authorization">http://&lt;www.apiserver.com&gt;/api/authorization</a>
Method:	GET
Headers:	client_id: <client_id> username: <username> password: <password>
Response:	<pre>{   "attrs": [     {       "_status": "success",       "_message": "read",       "user_id": 1,       "username": &lt;username&gt;,       "access_token": "d621fdb9a6dbb2b6fa8e1efd59e5daf",       "client_id": &lt;client_id&gt;,       "scope": null,       "createddate": "2017-11-06T20:45:20.737",       "expires_in": 3600     }   ] }</pre>

## 2. Consultar Access Token

Url:	<a href="http://&lt;www.apiserver.com&gt;/api/authorization/d621fdb9a6dbb2b6fa8e1efd59e5daf">http://&lt;www.apiserver.com&gt;/api/authorization/d621fdb9a6dbb2b6fa8e1efd59e5daf</a>
Method:	GET
Headers:	client_id: <client_id> username: <username>
Response:	<pre>{   "attrs": [     {       "_status": "success",       "_message": "read",       "user_id": 1,       "username": "sa",       "access_token": "d621fdb9a6dbb2b6fa8e1efd59e5daf",       "client_id": &lt;client_id&gt;,       "scope": null,       "createddate": "2017-11-06T20:45:20.737",       "expires_in": 3380     }   ] }</pre>

## 3. Refrescar Access Token

Url:	<a href="http://&lt;www.apiserver.com&gt;/api/authorization/">http://&lt;www.apiserver.com&gt;/api/authorization/</a>
Method:	POST
Headers:	client_id: <client_id> username: <username> access token: <access token>
Response:	<pre>{   "attrs": [     {       "_status": "success",       "_message": "read",       "user_id": 1,       "username": "sa",       "access_token": "d621fdb9a6dbb2b6fa8e1efd59e5daf",     }   ] }</pre>

	<pre>"client_id": &lt;client_id&gt;, "scope": null, "createddate": "2017-11-06T20:52:09.297", "expires_in": 3600 } ] }</pre>
